EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

In claim 1, line two, "lest" has been changed to least .

This amendment is made in order to correct an obvious typographical error.

REASONS FOR ALLOWANCE

The drawings filed on 6/25/2004 are accepted by the Examiner.

Art Unit: 1725

The patents to Peze et al (4,688,631), Bromley (3,881,083), Duke et al. (3,702,022), Heim (2,263,038) and the EPO document no. EP0235721A1 are cited to show prior art seam welders that include roller electrodes.

The following is an examiner's statement of reasons for allowance: none of the prior art of record teaches or suggests a seam welding apparatus with all of the features claimed, particularly the combination of the roller electrode, the stationary electrode, the main body and the relationship of the same with the sheets to be welded.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
